

Competitive Testing

Essential to Trojan's overall commitment to product quality is our investment in independent third-party testing, which provides valuable information on product performance while validating Trojan's product reliability and quality. This investment ensures that Trojan delivers the best products available for your application.

In recent tests by a leading independent third-party lab, Trojan's T-875 flooded batteries significantly outranked the competition in both sustained capacity and total ampere hour (AH) performance.

INDEPENDENT LABORATORY TESTING - 8V BATTERIES

Independent laboratory testing validates the sustained capacity and superior performance of Trojan batteries.

Global OEM Alliances with World-Class Companies

Leading the way...
for over 85 years

I recommend Trojan Battery

because the return on performance and value from their batteries are much greater than from other brands. Trojan's batteries are such good quality, that in the last 18 years we haven't had a single problem.

Technical Excellence

Trojan Battery Company's world-class development team continually tests and innovates new products, systems, and applications, establishing Trojan's reputation as the **world's #1 deep-cycle battery manufacturer**.

Advancements such as Trojan's *Cast-On-Strap* manufacturing process, *Alpha Plus® Paste with patented T2 Technology™*, *Maxguard® T2 Multi-Rib Separators*, and our new patent-pending *Internal Battery Protection System (IBP System)* found in our *Traveler 8V™* long-life battery, differentiates Trojan from its global competitors. With participation in Battery Council International, a technical research partnership with the Bulgarian Academy of Science, and membership in the Advanced Lead Acid Battery Consortium, Trojan's ongoing contributions to battery technology are respected worldwide.

Our commitment is to OUR CUSTOMER. Trojan Battery ensures that our products are made with the highest quality components and always deliver superior performance, durability and reliability.

Trojan's development team is backed by over 200 years of engineering expertise

Unmatched Performance

Trojan's proprietary technologies have produced unparalleled advances in deep-cycle flooded battery performance and overall life. Trojan proudly offers these technological advances:

- ① *Alpha Plus Paste* with patented *T2 Technology*, a high-density paste formulation specifically engineered to deliver outstanding battery performance
- ② *Trojan Grid Technology*, a lead antimony alloy mixture formulated specifically for use with *Alpha Plus* high-density paste, reduces overall corrosion and improves battery performance
- ③ *Maxguard T2 Multi-Rib Separator*, which extends battery life, sustains performance and lowers overall maintenance costs

World-Class Brand

Since 1925, Trojan Battery has engineered the world's most reliable, long-lasting, deep-cycle batteries. From our deep-cycle flooded batteries to our maintenance-free AGM and gel batteries, there is no better power solution than the proven technology found in every Trojan product.

- World's leading manufacturer of advanced deep-cycle battery technology
- Worldwide reputation for return on investment, durability, performance, and quality components
- Leading battery provider for:
 - Golf and Utility Vehicles
 - Aerial Work Platform (AWP) Transportation
 - Floor Machines
 - Material Handling
 - Marine & RV
 - Renewable Energy
- HydroLink™ Watering System for hassle-free maintenance of flooded batteries
- Delivers outstanding technical and customer service
- Over 200 years of combined engineering expertise
- Trojan operations are ISO 9001: 2008 certified
- Industry leader in health and safety compliance and environmental stewardship
- Recipient of Frost and Sullivan 2013 "Innovative Enterprise" award
- Made in the USA and available in over 120 countries
